## **DETAILED ACTION**

### **EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with William H. Bollman on March 3, 2005.

The application has been amended as follows:

Claim 4, page 15, line 29, "flow" has been replaced with --stream--

Claim 11, page 17, lines 9-10, "is according to" has been replaced with --in accordance with"--

Claim 12, page 17, lines 15-16, "is according to" has been replaced with --in accordance with"--

Claim 22, page 19, line 20, "19" has been replaced with --20—

***Allowable Subject Matter***

2. Claims 1-22 are allowed.
3. The following is an examiner's statement of reasons for allowance:

Claims 1 and 8 are allowable since prior art fails to teach detecting the amount of time between data packets from a source and further sending the data packets to a high priority transmission queue and low priority transmission queue based on their data rate and periodicity.

Claim 18 is allowable since prior art fails to teach identifying a high priority packet in a data flow based solely on a history of packets received from a same source and then, calculating an expected next high priority packet arrival time in the data flow.
